THE NATIONAL NURSE ASSISTANT ASSESSMENT PROGRAM (NNAAP®)

The National Nurse Assistant Assessment Program (NNAAP®) was developed by the National Council of State Boards of Nursing, Inc., The NNAAP® Examination is an evaluation of nurse assistant-related knowledge, skills and abilities. Its purpose is to determine if you understand and can safely perform the job of an entry-level nurse assistant.

ABOUT CREDENTIALIA

This handbook was created by Credentia in partnership with the California Department of Health. Credentia is a nationally recognized provider of testing services to develop, score and report the results of the California nurse assistant Registry test. Credentia also processes applications, schedules examinations and administers the tests.

EXAM OVERVIEW

There are two parts of the NNAAP® Examination, the Written (or Oral) Examination and the Skills Evaluation. You do not need to take both of these the first time on the same day, unless you register for the paper-pencil written/oral exam in place of the online exam. You must pass both parts in order to be listed on the California nurse assistant Registry.

THE ONLINE (available 1/1/2023) or PAPER-PENCIL WRITTEN EXAMINATION

The written part of your test is made of seventy (70) multiple-choice questions written in English. Sample examination questions are provided in this handbook.

Please note: If you have difficulty reading English, you can take an Oral Examination instead of the Written Examination.

The Oral Examination includes sixty (60) multiple-choice questions plus ten (10) reading comprehension/word recognition questions. If you want to take the Oral Examination, you must request it when you submit your registration form.

THE SKILLS EVALUATION

For the Skills portion of your test, you will be asked to perform five (5) randomly selected nurse assistant skills. You will be rated on these skills by a Nurse Evaluator. Please review the complete listing of the skills shown on pages 23 to 30.

You can also review The Written (or Oral) Exam and The Skills Evaluation for more details about the NNAAP® Examination.

Eligibility

This section explains:

- What you need to do to become a nurse assistant in California
- What you need to do before you can take the NNAAP® test

ELIGIBILITY FOR EMPLOYMENT AS A NURSE ASSISTANT

In order to be a nurse assistant in California, you must be sixteen (16) years of age or older. You **MUST** also have a criminal background check and you **MUST NOT** have any convictions on your record that would stop you from being a nurse assistant. You cannot have any rulings against you from any other state registry or licensing board.

ELIGIBILITY FOR NNAAP® TESTING

As a test candidate, you will be put into one of two eligibility or “E” categories. Please read the categories listed at right to see which one applies to you.

All student nurse assistant candidates applying to take the NNAAP® Examination in California must have successfully completed a Department of Public Health-approved nurse assistant training program. You are allowed two (2) years from your training program completion date to pass the nursing assistant examination. If you do not pass the NNAAP® Examination within a two-year period, you will be required to re-train before you will be allowed to take the examination again.

If you have not completed a CNA training program but you have had other training, please contact the California Department of Public Health at (916) 327-2445 to determine your eligibility.

E-1

You have completed a nurse assistant training program, approved by the California Department of Education, within the last twenty-four (24) months. New nurse assistant: For all applicants who have successfully completed a California State-Approved nurse assistant Education Program and have a signed unexpired 283B FORM.

E-2

In addition to submitting an application to test on your Credentia CNA365 account, you **must** also submit all California [required documentation](#) to CDPH. Please note: You will only be added to the California Nurse Aide Registry if you've submitted all requirements by mail or via their Online Portal. Online Portal Instructions and documentation requirements can be found [here](#).

Online Registration and Scheduling

Online registration is the best way to register for your examination.

HERE'S HOW IT WORKS:

You create an online account with Credentia's CNA365 system. The Credentia CNA365 system makes online registration quick and easy, and much faster than mailing a paper application.

- To create a free CNA365 account, go to www.credentia.com/test-takers/canorth. Click the "CNA365 Login" button on the top of the Northern California nurse assistant website. Follow the instructions to complete your profile account.
- Once your profile account is created you can create an "application to test." Select your eligibility route, complete the form uploading all required documents and submit for approval.
- Once you are approved to test you can schedule your exam and pay for the exam by credit card or pre-paid credit card (American Express, MasterCard, Visa, ACH/ electronic check, or electronic voucher). Fees are non-refundable and non-transferable once you've paid.
- For exams at test center locations, you'll need to make an online reservation using a laptop. Using your phone or a tablet is not recommended. You need to make your reservation at least ten (10) calendar days before the test date.
- For Written or Oral online exams, you'll need to make an online reservation using a laptop. You can schedule an exam as early as one day following registration, depending on when exam availability.
- You'll need to complete your online application in CNA365 but you can ask someone from your nurse assistant training program or facility employer for help in completing the application. If you need help or have any questions about the application process, contact a support representative at 888-204-6186.

Exam Day

TAKING YOUR EXAM ONLINE

(available for registration beginning

on 2/1/2023)

You can take your Written/Oral exam from home or work through Credentia online proctoring. A live proctor (someone who supervises the test) will securely monitor you through the webcam on your workstation. Online exams also offer you more scheduling flexibility than test center exams to fit with your schedule.

Please visit www.credentia.com/online-exams for information on what to expect and how to best prepare for your online exam. We also recommend that you click on the “Policies & Procedures” link on this webpage to review the exam rules and procedures.

WHAT YOU’LL NEED

- The right computer – a desktop, laptop or Chromebook with a single monitor (no smartphones or tablets). Visit www.credentia.com/online-exams to view or download system requirements.
- A private room – if you don’t have access to a private room, check with your training program or local library for availability.
- A mobile device – the proctor will need to see all around your exam area with a 360-degree room scan. Please be sure you have a smartphone or tablet (Apple or Android) that can do this using our free app.

The Skills Evaluation

WHAT TO EXPECT

SETTINGS

The Skills Evaluation is set up to look like an actual care-giving situation. The Skills Evaluation area will look like your work setting. It will have all the equipment needed to perform the assigned skills. The Skills Evaluation will be given by a nurse assistant Evaluator. Before your Skills Evaluation begins, the evaluator will show you where equipment is and answer questions about using the equipment. Please arrive 30 minutes early. Please plan to spend the day. See pages 23-30 for the complete skills listing.

WHO WILL ACT AS A CLIENT

The part of the “client” will be played by a candidate who will act like an elderly person. While you perform the skills, speak to the client as you would speak to an actual client in a nurse assistant work setting. It’s good to speak to the client not only because it is part of quality care, but also because it will help you to relax as you perform the skills.

Please note, you cannot get help from anyone during the Skills Evaluation, and you must speak to the client in English so that the evaluator can understand and correctly score the evaluation. If either one of you gives help or receives help during the test or you and the client are talking in a language other than English, the test will be stopped.

CANDIDATE VOLUNTEER REQUIREMENTS

You will need to act as a candidate volunteer for another nurse aide’s Skills Evaluation and play the role of a nursing home patient (client). You will get instructions on how you should act in your role as the client. You must wear flat, slip-on, non-skid shoes; a loose-fitting top with short sleeves that can be rolled up to the shoulder or tank top; and loose fitting pants that can be rolled up. You will have to put a gown on over your clothing. In no case should anyone remove clothing down to undergarments.

Before starting the test, you should tell the evaluator about any food or latex allergy or sensitivity to skin soaps or lotion. If you have trouble with any range of motion, you should tell the evaluator before you start.

You should not come to the test site with open sores on the skin. Candidates with any open sores on their skin should reschedule their skills test to a later date.

THE TASKS

The NNAAP® Skills List shows all of the skills that you may be asked to do during the Skills Evaluation. The skills have been broken down into steps.

A step that is highlighted in bold type is called a Critical Element Step. Critical Element Steps are important steps that must be performed correctly in order for you to pass the skill. If you leave out a Critical Element Step or do not perform a Critical Element Step correctly, you will not pass the skill. However, if you perform only the Critical Element Step correctly, you do not automatically pass that skill. You must also correctly perform enough steps to meet the passing standard (or cut score) for each skill.

Before your Skills Evaluation begins, the nurse assistant Evaluator will give you an instruction card that will list the five (5) skills selected for you to perform. Hand-washing will always be one of the skills to be performed. The remaining four (4) skills are randomly chosen from the skills listings on pages 23 to 30 of this handbook. You should perform the skills in the order they are listed on the instruction card.

- If you make a mistake, say so, and you will be instructed to tell the evaluator which step(s) is to be corrected and then to perform the step(s). You will not have to redo the entire skill, just the steps you want to correct. There are some exceptions to this rule. If you don’t put on gloves or take them off when required, and the evaluator reminds you to do that, then you will not get credit for trying to correct this step.
- If you want to correct a step that must be done in order — a step that has to be performed before or after another step — and you forget to say when the corrected step should be performed, you will not get credit for the correction.
- Once you begin a new skill, you can’t go back to correct the skill that came before it.

- The nurse assistant Evaluator will not answer questions during the Skills Evaluation and will not tell you whether you performed a skill correctly. You may not receive help from anyone during the Skills Evaluation. If you do have any questions, please ask them before the Skills Evaluation begins.
- One (1) of the four (4) randomly selected skills will include a measurement skill (see the section below, Recording A Measurement, for more information on measurement skills).
- You must successfully complete five (5) out of the five (5) skills in the skill form to pass the Skills Evaluation. You will have 30 minutes to demonstrate all 5 skills. When 25 minutes have elapsed the nurse assistant Evaluator will tell you that you have 5 minutes left.
- When you have finished your Skills Evaluation, the evaluator will tell you to wash your hands. This will not affect your score, but you must wash your hands as a hygiene measure.

RECORDING A MEASUREMENT

For your Skills Evaluation, you must perform one measurement skill, such as blood pressure, radial pulse, respirations, urine output or weight. You will be given a special form, called a Recording Sheet for Measurement Skills, to write down the measurement. For example, if performing the Measures and Records Blood Pressure skill, you will write the complete systolic and diastolic pressures of your blood pressure reading in a box labeled Candidate Results.

On the following page is a copy of the recording sheet that will be used during the skills exam. You must record your results in the Candidate Results box on this sheet. This sheet will be used to record the results of the following measurement skills:

- Measures and Records Blood Pressure
- Measures and Records Weight of Ambulatory Client
- Measures and Records Urinary Output
- Counts and Records Radial Pulse
- Counts and Records Respirations

Tips for the Skills Evaluation

- You will be expected to perform the skills just like you would in a nursing home setting. When water is required, you must use running water. You will be required to perform the Hand Hygiene skill.
- For your skills evaluation, you don't have to wash your hands for each skill. You can just tell the evaluator "Now I would wash my hands." You don't have to wash them each time, as long as you tell the evaluator when you would wash them if this were a real situation.
- For all steps other than hand-washing, you must actually perform the skill in order to get credit. You can't tell the evaluator what you would do for simulating a step. You have to actually do the step.
- After you have introduced yourself to the client for the first time, it is not necessary for you to introduce yourself each time you begin a new skill.
- To receive full credit for a measurement skill, you must accurately make the required measurement and then write that measurement on the Recording Sheet for Measurement Skills. The evaluator will provide the Recording Sheet to you at the test site. A sample of the Recording Sheet is shown on page 23 of this handbook. It's best for you to become familiar with the Recording Sheet before your scheduled test date.
- You must know how to use both a standing and a non-digital bathroom scale and must know how to set both types of scales to zero.
- You may not bring any of your own equipment to the test site (like a transfer/gait belt).
- It is important for you to place the call signal within the client's reach whenever you leave the client.
- Where the word "client" appears, it refers to the person receiving care.

IF YOU RECEIVE A FAILING SCORE

- If you fail the Written (or Oral) Examination or the Skills Evaluation, your Score Report will tell you how to retake either or both parts.
- If you fail either part of the NNAAP® Examination three (3) times, you will need to complete another training program and retake BOTH parts of the NNAAP® Examination, not just the part that was failed.
- In addition, if you were scheduled to take the exam 3 times and did not become licensed — either as a result of failing the exam or absence(s) — you will need to retrain.

See Registration and Scheduling for more details.

HOW TO READ A FAILING SCORE REPORT

If you don’t pass the Skills Evaluation, you’ll get a Failing Score Report. The score report will list the five (5) skills that you performed and a score of Satisfactory or Unsatisfactory for each skill. Any skill with an Unsatisfactory result is considered a failed skill. You need a Satisfactory result on all five (5) skills in order to pass the Skills Evaluation.

IMPORTANT: Use your Failing Score Report to help you study for when you retake the Skills Evaluation. A failed skill will show the reason for the failure, and you can use this information to make sure you do this the skill correctly when you retake it. Find the skill you failed, and study the steps, especially steps listed as Unsatisfactory on the score report.
